OFFICE OF ENGINEERING AND TECHNOLOGY
ANNOUNCES RELEASE OF VERSION 2.2.1 OF *TVStudy*

GN Docket No. 12-268
MB Docket No. 16-306

OET announces the release of updated *TVStudy* software (Version 2.2.1).¹ The *TVStudy* Version 2.2.1 software installation package, the *TVStudy* 2.2.1 Installation and Upgrade Guide, and the post-auction template XML file (*TVStudy* 2.2.1 Template), which contains the software configuration settings for use in processing construction permit applications during the 39-month post-auction period the Commission established for reassigned stations to transition to their post-auction channel assignments, are all available on the *TVStudy* website at <http://www.fcc.gov/oet/tvstudy>. As with prior updates, the full list of changes since the release of *TVStudy* Version 2.2 is included in the “Differences Between 2.2.1 and 2.2” section of the Change Log of the *TVStudy* 2.2.1 Installation and Upgrade Guide.

This release corrects a number of minor issues, both in the template and software, uncovered immediately following the release of *TVStudy* 2.2 and the *Auction Closing and Channel Reassignment Public Notice*.² Although minor, these issues can impact the results of studies conducted with *TVStudy* 2.2, and this update is strongly recommended for all users of *TVStudy*. Additionally, please note that this version of *TVStudy* does not address the issue with *TVStudy* 2.2 relating to LPTV stations.³ An update addressing that issue is still expected in the coming weeks.

For further information regarding the *TVStudy* software and to submit bug reports, contact Mark Colombo at (202) 418-7611, e-mail Mark.Colombo@fcc.gov.
